## What is LEAD?

LEAD is a life-transforming week for high school students. It develops confidence, leadership, and biblical worldview through authentic leadership simulations in government and media fields.

In short, it inspires teens to become the next generation of Christ-like leaders!

### *What does LEAD stand for?*

**Learn** to live out your faith in the real world.

Be **Empowered** to fulfill God's purpose.

**Act** like a leader: learn by doing!

**Discover** & unlock your God-given potential.

**At LEAD, we believe the best time to start being a leader is now, and the best way to learn it is to *do it!*** That's why we create authentic leadership simulations where students have the opportunity to experience the roles of everyday leaders: making decisions that would affect millions of people as a

state legislator; running a forty-million-dollar corporation; working as a reporter with broadcast and print assignments; and more.

And while gaining invaluable experience, students engage in biblical worldview discussions, faith-building worship and chapel, a hearty dose of games and recreational activities and awesome relationships built throughout the week.

***LEAD is an experience you won't want to miss!***

Like-minded leaders in [Michigan](#) and [Minnesota](#) have already been using this program for years, and now for the first time, The FAMiLY LEADER is bringing it to Iowa.

If you are interested in this exciting opportunity, please contact Dr. Nathan Oppman at [nathan@thefamilyleader.com](mailto:nathan@thefamilyleader.com) to learn more.

---
