

# House Committee Passes Defund Abortion Amendment

THANK YOU!

We would like to thank House Republicans on the Appropriation committee for passing the House amendment to SF 446 that included language to prevent taxpayer money from going to abortion providers.

We understand the real fight is yet to be fought in Conference Committee but you have taken a bold first step.

Thank you for protecting women, and babies yet to be born.

The following link provides a brief video that outlines some of the reasons why your support for the House amendment was so critical in committee and will continue to be vital when the bill comes to the floor.
