

On the front lines...

The story of this family-owned business in Grimes was discussed by several of the speakers at The Family Leadership Summit. Not only has same-sex "marriage" been forced upon Iowans, it is now becoming a requirement that Iowa residents agree with it. If someone does not, he or she will be taken to court. Religious liberty is under attack in America and that includes Iowa. Iowans must stand up for their liberties, or what happened in Grimes will only be the beginning.
