

Remember to Vote June 3

Set yourself a reminder to vote on June 3.

Next Tuesday, June 3 is the primary elections. **Set yourself a reminder right now so you don't forget to vote!** Grab your phone or wherever you keep your calendar, and set yourself a reminder.

Some people don't vote in the primary because they feel it's just not as important as the general election. But that is wrong! It's just as, if not more, important than the general election. The primary is where you have the most influence with your vote. I urge you to stand with those who will be a standard-bearer, pursuing righteousness in the civic arena.

I encourage you to look at the list below and do a few minutes worth of research into the candidates in your district:

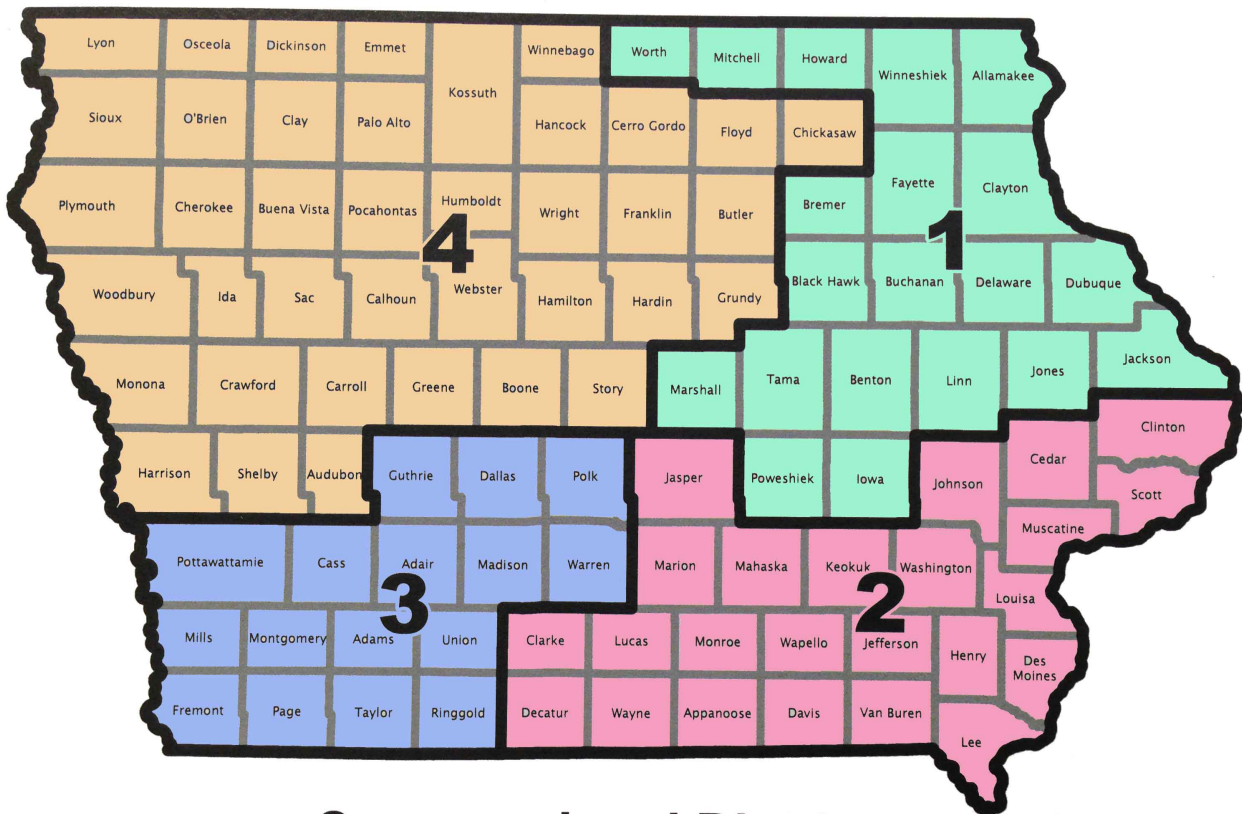

Bob Vander Plaats

Find your polling place here.
