

# The Daniel Impact

The Daniel Impact is a national strategy of equipping independent state organizations with a proven model of inspiring the Church to engage government – not for political ends, but to advance the kingdom of God.

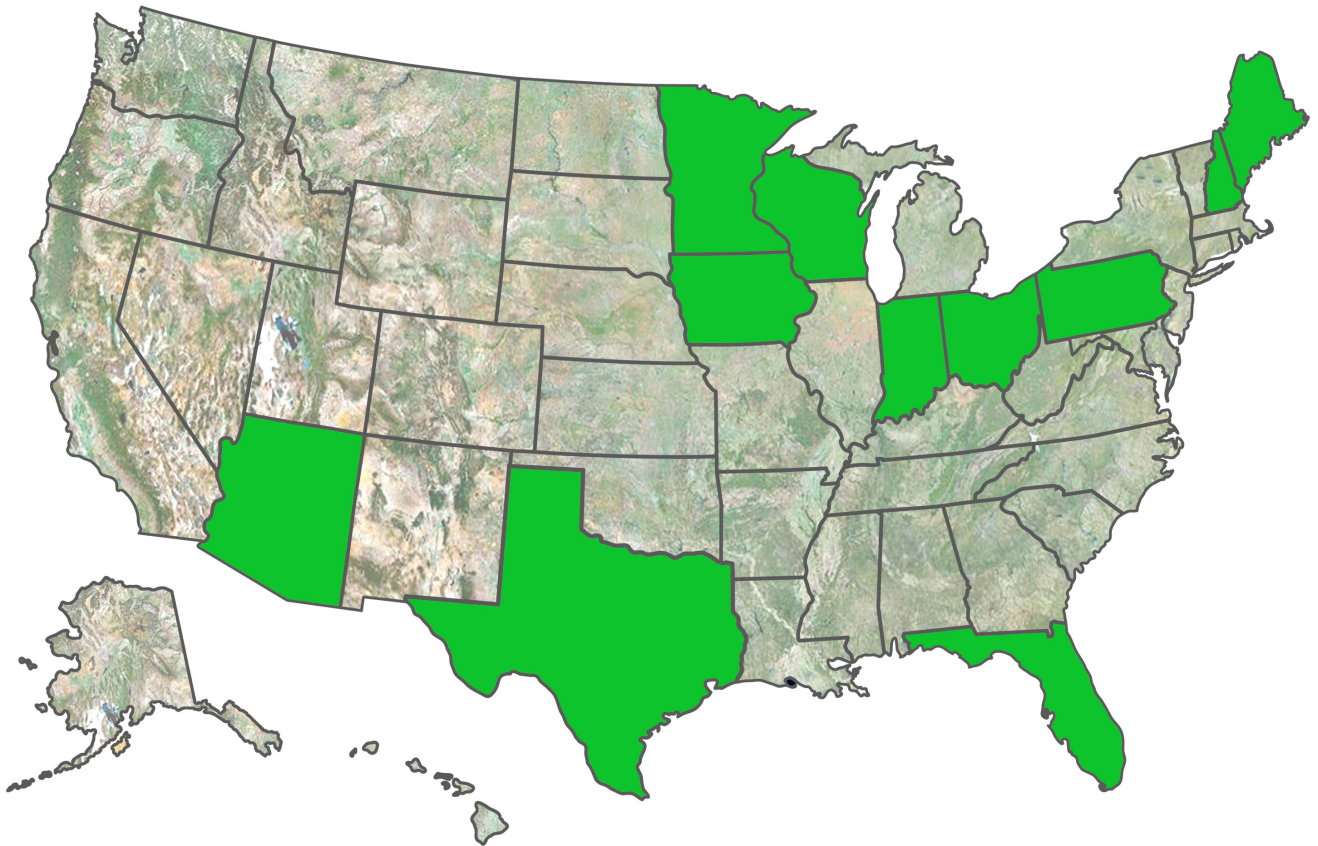

Formerly known as “The Daniel Initiative,” The Daniel Impact (TDI) reflects the next stage of growth for the strategy. No longer simply an “initiative,” the “impact” has already begun, and it is bearing fruit across the nation!

“I’ve personally witnessed the impact of The FAMiLY Leader’s ‘The Daniel Impact,’ in Iowa. Elections are impacted, best policies are enacted, and officials are blessed and encouraged when the Church is authentically engaged,” testifies Iowa Gov. Kim Reynolds. “I cheer on this proven model and hope it is embraced and enacted in many states.”

“Without a doubt, The Daniel Impact represents a new and unique way for us to serve pastors and churches,” comments Cathi Herrod, president of the Center for Arizona Policy. “We are hearing incredible reports from our colleagues in other states. My heart is eager for what God is about to do in our state through this effort.”

Today, The Daniel Impact links roughly a dozen states in a united purpose to see a revived America that honors God and blesses people.
