

WHY They Paid a Great Price

On Memorial Day, we remember the lives of those who have served our country. But do we ask ourselves WHY they paid that price? What value is there in serving our country if it's no different from any other? What makes America unique?

Dr. David Gibbs, Jr., was interviewed by Curtis Bowers, the producer of the documentary, "AGENDA: Grinding America Down," and gives an eloquent answer to the question, "WHY did they voluntarily give such a great price?"

The FAMiLY LEADER thanks all those who have served or are serving, and especially the families of those who have paid the ultimate price for our freedoms.

Thank you.
